BIG POSSE MAKES MIDNIGHT HUNT

Seeking Assailant of Mrs. Robt. Sowers, of Valley View—
City and Trains Searched

As a result of an assault upon Mrs. Robert Sowers, at her home near Valley View, Tuesday night, which left her in a precarious condition, a posse of irate citizens, headed by Deputy Sheriff James Taylor, of Valley View, scoured Madison as well as a large portion of Fayette county, Wednesday and Wednesday night in search of a colored man named Munday, of Valley View, who was charged with the crime after the recovery of Mrs. Sowers, more than four hours later.

The posse, which made for Lexington, where the negro was trailed, split there upon failure to find their quarry, one part coming to Richmond. This city was combed late Wednesday night and during the early hours of Thursday morning in a vain effort to locate Munday. The latter is said to have been on Richmond bound train, which he boarded, reports declare, at Nicholasville. Munday evidently was aware that he was being sought, for when the posse searched the train near Richmond he was not aboard, and it is believed he detrained between the and Nicholasville.

The posse, after a thorough search of Richmond was completed, called at the home of Sheriff Whitlock and sought information. They stated the case, but asked for no warrant. When asked why the local authorities had not been notified, the officer was informed that the man sought had been trailed in another direction, towards Lexington, and that city was thrown into a state of unusual excitement at a late hour by the visit of the posse. While it is believed that he made his way to Lexington, the theory is advanced that he back-tracked part of the way, leaving the train between the cities, in an effort to thwart his pursuers.

Mrs. Sowers, who is a young woman and said to be very attractive woman, was so frightened that she was unable for more than four hours after being discovered, to explain her terrible experience. She gave the name of her alleged assailant and stated details to her husband and other relatives up until she became unconscious. A physician was sought and was in attendance most of the day Wednesday.

The feeling against her assailant is said to be very bitter at Valley View, where he had been a resident for some time. The condition of Mrs. Sowers was reported Thursday as being such as to cause her to be confined to her bed, however, the attending physician is of the belief that she will recover. Robert Sowers, her husband, is a son of Mrs. McHie Sowers, of Valley View.

HEARD ABOUT TOWN

M. V. Jones of Augusta, has just taken his first train ride, going to Maysville.

At Toledo, Ohio, there is a few bell rings at 3 a.m. Wonder world would be up to hear it?

A Holy Roller preacher at Evansville says near beer is too near, and that it makes men devils.

At Center, Texas, a negro was hanged by a mob after he had confessed to causing the death of a white woman.

Three prisoners escaped from the Maysville jail by sawing away a number of steel bars.

H. H. Moore, 60, of Owenton, dropped dead on the street near his home.

Tuesday was the coldest day of the same date in Kentucky for a period of 13 years, the mercury reaching the 56 mark.

Governor Alfred E. Smith, New York, has no rival candidate for the office of which he is the only Democratic nominee.

William Crutcher, Little Rock, Ark., threw his four little children in a bayou, then jumped and drowned himself, while his wife was at church.

More than 100 American doughboys with their brides have arrived at New York on a steamer from Germany, where the men have been on duty, their return being brought about through the lack of housing.

Population of Frankfort has decreased 660 during the past 10 years, according to census return.

Freedom of the Philippines is favored by the congressional committee having the investigation in charge.

SAYS TOLEDO IS STRONG FOR COX

E. F. Masters, formerly of Richmond, who has been in Toledo, O., following the carpenter trade since spring, arrived in Richmond Thursday and will spend a few weeks here undergoing treatment having suffered ill health for the past several weeks. In the meantime, he will visit his sister, Mrs. Susan Foster, residing west of the city, and his brother, S. L. Masters, of near Valley View, as well as a brother-in-law, J. V. Whitlock, also a resident of Madison.

Mr. Masters reports that there are fifty-fifty bets taken on Gov. Cox, at Toledo, every day in the week and on Sunday, and that all the Harding money is covered the instant it is laid down. He claims there are Cox clubs and boosters galore and that he will make another trip to Richmond, if necessary, to cast his vote for the Coolumbus man. Mr. Masters states that he has plenty of employment there and will return as soon as his health will permit.

AT BEREA FAIR

This is the second day of the Berea Fair. Big delegations of Richmond folks have gone over for the day and a great crowd is expected to be present. The first day was a good one. The airplane caused intense interest. The program for the second day is as follows:

SOME COUNTY SCHOOL SUPERINTENDENTS QUIT

V. M. Moseley, county superintendent of Muhlenberg county, has resigned to become principal of a county school. Under the new law many county teachers are receiving larger pay than the superintendent.

Another superintendent has written the state department of education about resigning to take a school.

Increases provided for by the minimum salary for superintendents will not be effective during terms of incumbents.

JUDGE SHACKELFORD GRANTS MANDAMUS

SETTLES PRIMARY CASE AS TO ELECTION OFFICERS IN ESTILL, LEE AND BREATHITT COUNTIES

Sitting in chambers here, where many from other districts were present, Wednesday, Circuit Judge W. R. Shackelford granted a mandamus against the county board of election commissioners and Carter D. Stamper D. Carter, chairman of the Republican county committee of Lee county, requiring the election commissioners to give J. A. Shackelford, of Lee county, and W. L. Kash, of Jackson, two of the three Republican candidates for circuit judge in the Estill-Lee-Breathitt district, a part of the election officers to hold the primary next Saturday, and requiring Stamper to appoint challengers and inspectors asked for by these two candidates.

Judge J. K. Roberts, the regular judge in that district, declined to sit in the case, as he is a candidate for re-election, and Judge Shackelford, of Richmond, was selected to hear it.

It is claimed by Candidate Shackelford and Kash, the other candidate, that Mr. Stamper, who is chairman of the Republican organization, is actively for Mr. Hurst, as are also the sheriff of Lee county and the Democratic county election commissioner who has for years been the law partner of Mr. Hurst. Thus acting together and disregarding the Republican member of the county board, they have named the whole set of election officers for Lee county.

COAL DEALERS TO HAVE BIG MEETING

RICHMOND MAN LEADER IN STATE ASSOCIATION, WHICH MEETS AT LOUISVILLE SOON

The first formal session of the Kentucky Coal Dealers' Association, organized some time ago, will be held next week at Louisville, and there will be much interest centered in the meeting, since there will be special matters of unusual importance presented and discussed by the members.

The effecting of this organization will admit of some to present matters pertaining to the business for the first time and receive the opinion of other dealers. There is expected to be a large attendance, owing to the critical situation presented at this time. Richmond is expected to be represented by one or more dealers, and if there are any special benefits to be derived by them, the fact will soon be known, as well as to the consumers, many of whom are growing apprehensive, since the cold period is not far away and instead of an improvement in the situation, conditions are more complicated, seemingly, with less coal in sight and a greater price being asked for that.

The purpose of the Kentucky Retail Coal Dealers' Association is to bring about a better spirit of co-operation among the retail dealers and mine operators and the railroads. It is no part of the organization to attempt to control or regulate prices.

The first few months of the organization will be devoted to increasing the membership and building up an efficient working force, before any measures are begun that will affect the trade in any way. The call for the meeting was issued by J. Crow Taylor, of Louisville, who is also secretary of the Kentucky Retail Lumber Dealers' Association, at the suggestion of C. P. Willoughby, of Richmond, who entered into conference with local dealers on the possibilities of the organization and received such encouragement that the call was issued to dealers in other cities.

NEW BANK COMMISSIONER

Frankfort, Ky., August 5.—W. W. Peavyhouse, of Hazard, formerly of Lincoln county, has been appointed deputy state banking commissioner to succeed A. C. Adams, Whitesburg, resigned. Commissioner James P. Lewis also has announced the appointment of Lon Richards, Lewisport, as bank examiner.

BIG LOCAL DRUG BUSINESS

Perhaps it is not generally known, but Richmond druggists are experiencing one of the best summer's businesses in the history of the city. The reports from the various merchants indicate that the business, instead of decreasing at this season of the year, especially where there are not soft drinks sold, is increasing.

TOBACCO GROWERS MAY POOL CROPS

MEETING AT LEXINGTON DEVELOPS STRONG SENTIMENT FOR ANOTHER ORGANIZATION

Lexington, Ky., August 5.—Farmers from 28 of the 40 counties in the white burley tobacco producing belt met here Wednesday to decide whether the crop for 1921 will be cut out and foodstuffs produced or whether the usual crop, which has been producing about 200,000,000 pounds, will be set next year.

It was stated in the proposed declaration of the organization that a body, called the Burley Growers' Association, be formed without intent of profit and that necessary action be taken to protect the grower. Speakers who included Congressman J. C. Cantrell and J. W. Newman, former Kentucky commissioner of agriculture, said the crop should not be cut out now, that it would be best to wait and see how well the farmers would stick together.

Another meeting will likely be held here August 18, when a permanent organization is expected to be formed. Speakers said in some counties it costs 25 cents to produce a pound of tobacco and that this price was not received by many growers. It was declared that tobacco could better be used as fertilizer than sold at this figure. Pooling of the 1920 crop was also advocated.

Former Commissioner Newman presided after C. M. Dean, of Carrollton, had called the meeting to order, and both Mr. Newman and Mrs. Cantrell opposed a cut out, Mr. Cantrell on the ground that the production this year might only be equal to the needs of the manufacturers, and Mr. Newman on the ground that the better way was for the growers to organize now.

Sentiment was expressed by some of the speakers for an organization of the farmers along all lines of agricultural endeavor and one speaker, who advocated the holding of products until the price asked by the producer is paid, said: "Let them go naked as jay birds until they pay it." He was roundly applauded.

SUPREME COURT ASKED TO REVIEW DRY CASE

Washington, Aug. 5.—Efforts to have the Supreme Court reconsider its decision of June 7 sustaining the validity of the Eighteenth Amendment and portions of the prohibition enforcement act were made by some of the attorneys who appeared in the cases decided at that time.

Petitions asking the court to review the appeal of George C. Dempsey, Boston wholesaler, attacking the act were filed Wednesday while Wm. D. Guthrie, attorney of New York, has notified the court that he will make a similar request in the case of Christian Feigenspan, brewer of Newark, N. J.

In asking rehearing of the Dempsey case, the petition alleges that the court's conclusions are "inconsistent and repugnant to each other," and "palpably incorrect and erroneous." Such requests seldom are granted by the court.

COUNTY TEACHERS HAVE NEXT PROGRAM READY

It has been decided by the teachers of the county schools to hold regular business meetings once a month at the Madison county court house, instead of the old-fashioned sessions as in years gone by, and the first one, which took place last week, will be followed, according to a decision on Thursday, of September 4. This will be in charge of Rufus Click, teacher of the Dozier school near Red House, and he is preparing an interesting program. This meeting will be followed by others during the winter when special programs will be arranged by the ones in charge.

KENTUCKY POSTMASTERS WILL MEET NEXT WEEK

The annual meeting of the postmasters of Kentucky will be held at Louisville next week and there will be an increase in salary asked for by some of the smaller city officials, it is stated. Postmaster R. C. Stockton, of the Richmond office, will not be in attendance, he stating this is his busy season of the year, since it is vacation time and one or more attaches are off duty. C. A. Bell, of Bedford, is president of the Kentucky association.

BOUNTIFUL RAIN SAVES THE CROPS

TOBACCO MEN HOPE NOW FOR DECREASE IN RUST—CORN CROP GREATLY BENEFITED

The rain of Wednesday was a God-send, according to the interpretations of producers of corn and tobacco, especially the latter, in Madison county, since there has been a widely different and encouraging phase attached to the situation as a result. Much of the immature crop, which was suffering every day and no rain has already shown a tendency to grow, and the change in the way of relief from the rust and blight as it is turned, in some sections is already very apparent.

The rainfall did not cover the entire county, in some localities it being reported that above all was noticed, but the greater part of the territory was covered, and thousands of dollars were added to the worth of growing crops. It is believed the rust will not only be checked, but the ravage stopped where it has not gained such a hold, and that corn was greatly benefitted there is no question, saying nothing of the immense amount of good derived by truck gardening, which is becoming more and more extensive in Madison county every year.

Farmers believe that with at least one rain a week for the next few weeks, both corn and tobacco will be saved, and that the apprehension regarding the general development will have passed for entire season. Some tobacco has been topped, and this work is growing daily in Madison county. It is true that there is not much planting that will be ready for some time, however, the rain will work wonders according to growers.

GOVERNOR PARDONS MADISON NEGRO

A special from Frankfort has the following of interest here:

"After seeing the photograph of his wife and eleven children," said Gov. Morrow, in pardoning Zach Munday, a Madison county negro, convicted of chicken stealing, "I am constrained to believe that every end of justice has been served by six months' imprisonment."

The picture, taken in a group, was sent to the Governor with a pardon plea. County Attorney O. P. Jackson wrote the evidence was conflicting. Other citizens reminded the Governor that arrest of a negro for chicken stealing is as good as conviction.

Zach himself said in the letter: "The democrats have got it in for me because I'm bred and born republican. They would of hung me if they could."

He protested that the two chickens valued at \$2.70 for which he has been serving a year's sentence, belonging to him. The prosecuting witness was engaged in the poultry business next door. Zach sold the chickens. A glance at the twelve dusky faces convinced the Governor that it was the expedient thing for Zach to do. Two chickens wouldn't have made gray enough to go around.

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N.C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. [redacted] had us get Cardui. I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE

CARDUI

The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, rundown and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

ON MARRIAGE BENT, COURT CASE STOPPED

During the hearing of a county court case Wednesday afternoon the attention of Judge W. K. Price was attracted by a very persistent young man who, after a witness had been examined, confided in the judge to the extent that he wanted to get married and wanted to get married post haste.

He gave his name to County Clerk Jennings Maupin as Elbert Gentry, 29, and was accompanied by his bride-to-be, Miss Leda White, whose age, according to a note from her mother, at Ditchick, from which place both came, was 16 years. Judge Price realized the "seriousness" of the situation and stopped that trial right then and there and referred to his office, where he tied the nuptial knot, after which the testimony was resumed. The departure of the youthful husband and his bride followed.

They returned Monday, accompanied by Mrs. Mainous, who will join her daughter, Josephine, who is attending school at Battle Creek, Mich. In their return they will visit friends in Paris, Ky., and in Ohio.

Will Hamilton and Harve Evans, of Owlsley county, are visiting relatives and friends here.

WARN SPEEDERS

A prominent citizen of the Newby section sends the Daily Register the following:

"There come to Newby most every Sunday some boys who think the pike belongs to them, judging from the way they drive. They think of nothing less than 400 miles per hour. Women, children, horses and buggies, autos or anything in front of them must take to the fence corners. They go to Tate's creek and come back mighty funny sometimes. The new law is in effect now, and unless these young fellows behave themselves next time I come in contact with them, they will answer the courts. Last Monday evening, court day, I met a young man nearing Richmond on the Tate's creek pike in a new automobile and I gave him all the road. His gait was 50 miles an hour, I believe. I never ride half so fast in my car, and that is how I judged his speed. This is a free country, though I am tired of having to go off in the ditch to give way to a Smart Alex auto.

Now, if the citizens of Madison county will say stop fast driving and then act, it can be stopped. It's with us. The people generally get what they ask for. This is a fast age, but let's not run over. Where are Uncle Sam's men? They had better get busy. Something needs doing.

FOR CONGRESS

Democratic Primary, Saturday, August 7th

Help Ripy "Go Over the Top"

He Will Redeem the District in November

ATTENTION DEMOCRATS

Madison County has no candidate for Congress. The Democratic party in control at Washington City managed and directed the placing in the field of the greatest army ever assembled under the Stars and Stripes and this army put to rout the German forces and caused the downfall of the greatest military power on earth.

The Democratic party should recognize the valiant service rendered by the boys in khaki by nominating a soldier in this district.

Col. Frank Ripy was at the front during the fighting. He stands squarely on the Democratic platform as promulgated at San Francisco without reservations, additions or "isms."

Col. Ripy is not in favor of African Slavery, Polygamy, the sale of liquor at county stores or any other remote or dead issues. He and his people have always supported Madison county candidates for Congress, Governor and United States Senator. If nominated he can defeat the present Congressman, King Swope, in November.

Vot for Ripy next Saturday, and let it be understood that we are for our boys in peace as in war.

RICHMOND SCHOOLS AMONG FOREMOST

Number of Students Remain Normal and Progressive Spirit is Being Appreciated

There are exactly 1,827 students eligible to attend the schools of the city of Richmond, 924 whites and 403 colored, according to statistics gathered by the census takers, the number being about normal, as shown by comparison of figures of former years. It was believed there would be a material increase. However, this seems not to be the case. There have been many changes in the city, and there is a constant fluctuation of population, although the element representing this is not cutting much of a figure with the students of the schools, indicating a general desire upon the part of parents to remain in one place, the education of their children being one of the chief reasons. This, as well as other interesting facts, are gleaned thru investigation of the population of the city. The Richmond schools are said to have progressed to a great degree during the past five years; and the progressive spirit is being continued, since there has not been a single year, expense reports show, when there have been so many improvement, with the exception of when a city school was built, as the present. The remodeling of the Madison High school, admitting as it will of manual training, wireless and all modern studies, brings this institution to the head of the list when compared to other high schools in the class of cities in which Richmond stands. The improvements, now under way, have been coveted by many of the older students especially for years, and when the opening is at hand there will be many glad hearts, for some, of the best work

along special lines to be found in any of the bigger cities of Kentucky is duplicated, and probably surpassed, by some of the students in the school "right here at home," as one of the members of the city board expressed it. "They want these things, and should have them, to be given an equal chance will all," one member boasted, speaking of the expense attached to providing modern schools.

POLICE COURT SESSION

The regular session of the city police court will be held Friday night at the city hall and there will be a number of cases on the docket for a hearing. There will be some alleged speeders and assault and battery cases, it is understood. City Judge G. Murray Smith expects to be busily engaged for some time.

Prof. J. R. Robinson is in London this week on business.

HURRYING THE WORK

East Main street, from Collins street east three blocks, which is preventing the use of that busy thoroughfare, will be thrown open to the public again within a short time, if hurrying work amounts to anything, since the corps of workmen has been increased with this view as the objective, the water company realizing the necessity for the opening of the street as soon as possible. A few of the workmen gave up for a short time Saturday, and climbed out of the trenches, owing to the intense heat.

GROUND IS BROKEN FOR NEW BUILDINGS

Richmond Contractors To Participate In Erection At Eastern Normal Campus

Ground for the new Eastern Normal buildings on the campus will be broken immediately, as word has been received from C. A. Rawlings, contractor, that material has been ordered out and that it should arrive at once. It is understood that a number of local companies hold sub-contracts on these buildings and that the superintendent is to be a local man. This news will be welcomed by the many friends of the institution who are anxious to see the work completed at the earliest possible moment. In addition to fulfilling their contracts, the local companies will be actuated by community pride. It is much to the advantage of local contractors to have a hand in the construction of the buildings that go to make up an institution such as the one represented by the Eastern Kentucky State Normal School.

The new girls' dormitory is to be erected just south of Sullivan Hall, the main dormitory. The completed building will house 336 students, but the part that is to be erected at this time will only accommodate 112. This building will house another dining room and kitchen with a much greater capacity than the Sullivan Hall dining room.

The addition to the boys' dormitory will be just to the rear of the present building and will conform exactly in size to the main section of the old building. There will be accommodations for 56 boys in the new section, and with the improvements contemplated the number of additional accommodations will reach 70.

It is thought by those in charge at the Normal School that the new buildings will not relieve the congested conditions. Hundreds of students have refused to come to Richmond because they could not be promised a definite rooming place. There will continue to come those who are willing to take a chance on securing accommodations in town. Applications have already been received for some of the rooms in the new buildings.

AGED CITIZEN DIES

Mr. Christopher C. Tudor died Monday evening at the home of his daughter, Mrs. Louise Haden, at Million, in his 85th year. Death was due to a stroke of paralysis, which he sustained about six years ago. Surviving him are his daughter, Mrs. Haden, and several grandchildren. The body was interred in the family burial ground Tuesday afternoon.

Misses Cornelia and Ethlyn Wilson, Orena Duncan, R. Dunbar and a party of friends have returned from a trip to Mammoth Cave.

GASOLINE DEMAND STILL INCREASING

Richmond's Youngest Salesman Makes Record During Month of July—Big Revenue

Charles Nelson, although one of the youngest salesmen for the Standard Oil Company in Richmond, claims to be one of the best and has the figures to prove it, his record heading the list for the past month. Nelson, according to his figures, sold and delivered in the city of Richmond, 26,715 gallons of gasoline to local consumers. This is said to represent the largest individual sale for the month among the entire corps of salesmen for the big company here. Young Nelson is not the oldest salesman, but his enviable record has won for him a new wagon, of which he is very proud.

This is an illustration of what can be done by a youngster who desires to make good, and it is hinted that there is something better in store for him in the near future. The consumption for the month, it is believed, will record a higher mark than for any previous month this year, since it covered the harshest period, one of the busiest months of the year, and a time when most of the gasoline was used on the farms. However, it is expected that there will be but little, if any, decrease in the quantity consumed henceforth, since there are new automobiles added each week, and new farm machinery and other apparatus that requires this fuel.

The one cent per gallon tax to the state, it is believed, will be the greatest yet reported, since

figures of other salesmen of gasoline are above their average for former months. The demand is steady, the fluctuations not recording great changes, although there are heavier months during the summer than winter.

90 TONS OF STONE DAILY FROM QUARRY

Although 90 tons of crushed stone are being removed daily from the local quarries, scarcely a "dent" is being made, it is said, and when the work of paving the streets of the city is finished and the supply procured for local use, there will be an equal supply loosened, ready for crushing, which will leave the quarries in a condition similar to that in which they were found. When the work was started by the contracting company there was much stone ready for crushing and the company stated they would arrange this matter when thru with the work. The explosions are attracting considerable attention, since 40 per cent dynamite is used for surface work and 60 per cent for the lower, which has very effective results. Although there are many explosions a day, this work is in charge of an expert, and no accidents have taken place.

PLANS ARE MADE FOR EXAMINATION

Many Teachers Who Have Not
Been Officiating For Years
To Take Up Work

Preparations are on for the special examination of teachers to be held Friday and Saturday at the court house in order to fill the quota of teachers for this and other counties. The examination will be held as a result of the petition of the county superintendent of schools, who found many places unfilled. Instructors have been at a premium, altho there are few vacancies in Madison county, despite the fact that many teachers from here have been employed in other counties.

The examination, it is understood, will be taken by a number who are qualified to teach in the schools, but who have sought other vocations. There will also be some, it is known, who gave up the work some time ago who will return to it as a patriotic duty to their home county. One woman, altho married an attorney forever,

STATE'S LARGEST ANNUAL EXHIBIT

Of Agriculture To Be the Third
At College At Lexington In
Near Future

The college of agriculture at Lexington will present its third annual exhibit at the Kentucky state fair in September and will offer at least 50 per cent more material of interest than in either of the former exhibits. Facts of interest to men, women and children in agriculture will be presented and many late methods of undertaking old work will be explained.

The new subject of farm engineering has gained great advancement and this department will present in the exhibit the value of tile drainage on wet land, a subject which has been worked out with entire success at the college of agriculture.

The position obtained for the 1920 exhibits is in the north end of the grandstand in the same location as that occupied last year and since the daily attendance grows larger each year every available space for the display will be used so that all may view the exhibit to advantage.

The increase in knowledge of the treatment of crops and soils has made the college of agriculture of unlimited value and this fact is also true in experiments made in feeds and feeding; marketing, horticulture, farm management, poultry, veterinary, entomology and animal husbandry.

Home economics means everything to the housewife of today and she will find much to learn and enjoy in the exhibit which will contain new labor-saving devices; money and time-saving methods and ways and means for economy in food and clothing.

What the fathers refused to accept the boys and girls have adopted at their own and the boys' clubs an: girls' home demonstration work show the result of organized scientific effort. The boys and girls will attend the state fair this year in larger numbers than ever before and the work they have accomplished will be a decided feature of the exhibit.

Chicago, Ill.—"I was very sick for some time with pains in my sides and back and I could not do my work at times the pain in my sides was so bad, I would have to stay in bed for days at a time. My mother-in-law had taken Lydia E. Pinkham's Vegetable Compound and recommended it to me. It cured my pains and I am now able to do all my work. You can publish my testimonial and I hope the Compound will do others the good it has done me."—Mrs. ANNA JOHNSTON, 206 E. 41st Street, Chicago, Ill.

For forty years women have been telling how Lydia E. Pinkham's Vegetable Compound has restored their health when suffering from female ills. This accounts for the enormous demand for it from coast to coast. If you are troubled with any ailment peculiar to women why don't you try Lydia E. Pinkham's Vegetable Compound? It is made from native roots and herbs and contains no narcotics or harmful drugs.

REPAINT COURT HOUSE NEXT YEAR

Contract Closed Tuesday Morn-
ing For Additional Interior
Decorating

The Madison county court house will be repainted next year, and Tuesday morning negotiations were completed for the extension of painting at the court house by W. S. Ballard, who has finished the work of redecorating the court rooms and some of the offices of the building. The new work will be evident in the office of County Clerk Jennings Maupin and that of Circuit Clerk James W. Waggers, and in the witness and jury rooms.

The same colors which have predominated in the other portions of the building will be used in the new work and this will admit of the entire interior of the building being finished in the same hues. The color is said to produce a surprising light effect, since the old painting was of such dark color, and there is much favorable comment with the result that after one court room had been finished, plans for more painting were soon underway, with the result that the office of the county clerk as well as that of the county school superintendent, were given a coat of the coloring, and now it is extending to all of the other offices.

The exterior of the building which has not been repainted for a number of years, will be repainted next year. This has been decided upon, since the condition of the masonry has been carefully inspected by a number of county officials, and it has practically been decided to have the entire outside of the building painted in another year. Mr. Ballard, who has been doing the work thus far, is one of the oldest resident painters of Richmond, having been at the trade most of the 64 years he has been a resident of this city.

CHANGE OF SCHOOL BOOKS COMING SOON

State Officials Want Extension of
Time From Publishers Who
Offered Rebate

If the effort of George C. Cavin, State Superintendent of Public Instruction, is successful, there will be an exchange of books soon, deferred from last year, owing to the inability of publishers to get them out, and a rebate received by every holder of the old books, upon exchange for new ones at local dealers within the next two months.

The publishers were to have given a rebate, or to have taken the old books back, when the change was made, at a reduced price, up until July, of this year.

However, the inability to get the

books printed altered the situation, with the result that the change was not made at the specified time, and the old books consequently, were held in use. Superintendent Cavin is endeavoring to have the publishers extend the time in receiving the old books, since the new ones have made their appearance, and if this effort is successful, there will be an early exchange without full price having to be paid upon the part of the purchaser.

This will represent a large sum saved, when the extensiveness of the county school system is given consideration, as well as the change, which is said to be complete, the new books being widely different in many ways, from the old ones now in use.

Just when the official change is to be effected is not known, however, it will take place soon. The first of the books have arrived at the local dealers and the attention of Supt. Edwards has been called to it.

How Many Miles From a Cord Tire?

Men are everywhere telling remarkable tales about mileage from Miller Cords. But remember that mileage varies with conditions. Size and load, road and care affect it.

One man who has sold and watched many thousand Miller Tires says this: "I find that Millers excel other tires in service from 50 per cent to 75 per cent."

The Hudson Taxi Co. of Detroit reports a 15,000-mile average on rather heavy taxis.

TWO MAGISTERIAL COMMISSIONERS NAMED

In Compliance With Law Which Enables Women To Vote In Coming Election

In order to comply with the law enacted by the recent legislature, providing for the re-apportioning of the magisterial districts of the county into voting precincts for the purpose of permitting women to vote in the coming presidential election, County Judge Price has named two commissioners from each magisterial district, one republican and one democrat, to do the work, and they have been asked by Judge Price to meet at his office next Thursday morning, August 12, to outline the work, which it is thought, will require but little time, as no district contains more than four precincts at the present time, and the two commissioners in each district will only do the work in their respective districts. Following are the commissioners named:

District No. 1, composed of Court House and City Hall precincts, Walter Bennett and G. W. T. Deatherage; District 2, Normal and Francis precincts, Robert R. Burnam, Jr., and H. C. Rice; District 3, White Hall and Red House precincts, G. C. Clark and H. P. Dykes; District 4, McCreary, College Hill and Kavanaugh districts, C. M. Terrill and Green Noland; District 5, Waco, Brassfield, Bearwallow and Kingston precincts, Luther Todd and C. L. Scarcey; District 6, Blue Liek, Clay and Duecannon precincts, J. C. Armstrong and E. T. Fish; District 7, Burnam, Tevis and Crutcher precincts, Rufus Blakeman and W. A. Arbuckle; District 8, Posey, Newby, Biggerstaff and Valley View precincts, J. H. Jones and William Jenkins.

MUNCY BROS. PRIZES

Muncy Brothers' store has presented a busy scene since last Monday, when the balloon ascension was pulled off, and hundreds thronged the Muncy square throughout the afternoon. As was announced in the big two-page advertisement, prizes are given away each day during the August mammoth sale. Tickets are given to the first 100 persons entering the store and in the afternoon tickets are drawn and the holder of a certain number is awarded a prize. On Monday three prizes were awarded, and the names of the successful parties were published Tuesday. Since Monday there have been two more prizes given. On Tuesday, Mrs. Arthur Riddell was given a rocking chair, and on Wednesday the beautiful electric lamp was drawn by Miss Beulah Bolton. A prize will be given each day until the close of the sale on August 14, when all persons holding tickets are requested to take them to the store and have an opportunity of securing the beautiful range, which will be awarded. Watch the paper daily for prizes being awarded, and, better still, go in and be one of the winners of the

beautiful prizes given away free of charge.

SPEEDWELL

Crop conditions in this section are fairly good and if the season is favorable for the next five weeks a good field of corn is predicted.

The graded school here is progressing nicely and a good attendance is reported.

Mrs. R. C. Coomer has returned after a two weeks' visit among relatives at Winchester, Roslyn and Beattyville.

Rev. J. W. Master filled his regular appointment at the Christian church.

Revival services at Viny Fork Baptist church here have been in progress since Monday. Rev. E. L. Mitchell, the "Billy Sunday of Kentucky," assisted by the pastor, Rev. Ross, is in charge. Much interest is being aroused, as evidenced by the large attendance. There have been several additions. The meeting will continue throughout the week.

Funeral services of the little daughter of Mr. and Mrs. Morris were conducted at Viny Fork church Monday at 3 o'clock, interment in the cemetery near the church following.

Mr. Riddell's son, who had the misfortune a few days since to have his hand badly lacerated on a threshing machine, is recovering.

Mrs. Joe Stivers, of the Brassfield vicinity, is on the sick list.

Mrs. J. G. Whisman, who has been in bad health for some time, is slowly improving.

A large number of friends attended the birthday celebration of J. W. Hord. It had been planned to have all relatives present, but many of them were unable to respond. The birthday anniversary of his daughter, Miss Bertha, was celebrated at the same time.
